

National Agriculture Sales 2019 Company Information

Bayer is a Life Science company with a more than 150-year history and core competencies in the areas of health care and agriculture. With our innovative products, we are contributing to finding solutions to some of the major challenges of our time.

For over 150 years, Bayer has been delivering on its mission of Science For A Better Life. It's more than just a saying – it's a philosophy we bring to life every day. Whether its keeping your house pest free, keeping highways and railways safer or ensuring healthy outdoor green spaces, we help our customers foster healthy environments where people live, work and play.

It's what drives us to create innovative solutions for pest management and mosquito abatement professionals to control nuisance and disease carrying pests in homes, outdoor spaces and businesses around the world.

It's why we're the trusted resource for Vegetation Management professionals who go ahead of the rest to enhance safety and reduce risk caused by unwanted vegetation.

Building on our passion for innovation and plant health, we develop solutions for golf course superintendents, lawn and landscape professionals, and greenhouse and nursery growers that help protect and care for healthy turf, lawns, trees and ornamental plants.

You want to be the best solution for your customers. By embracing Science For A Better Life, Bayer is committed to being the best solution for you as we work together to create a better life for society.

Bayer has the fungicide, herbicide, insecticide and growth regulator solutions you need to keep your turf healthy and strong. We'll help you prevent and control weeds as well as diseases, offering the expert advice that makes your job easier, your turf greener and your golfers happier.
