

NATURAL RESOURCE Management
RESEARCH PROJECT

National Park Service and National Parks

GRADING this will count for three separate grades.

- Research during class - Week of 10/28/19
- Information compiled
- Presentation of information using a poster or presentation

Instructions

Write out the information on your own paper that you find.

1. Visit the National Park website WWW.NPS.org

Find out the History of the National Park Service

- When was it founded?
- The purpose of the NPS
- What does the NPS do?
- How many people work for the National Park Service and who is in charge.

2. Choose a specific park to research.

HISTORY

- Give a brief history of the park.
- Special Features
- How it received its name
- Location:
- Established:
- Coordinates:
- # of people who have visited the park in 2018
- Highest elevation point and location

3. 5 INTERESTING FACTS ABOUT THE PARK for example:

- What makes the park unique?
- Why do people travel from far places to see the park?

4. 5 INTERESTING THINGS TO DO AT THE PARK

For example camping, fishing, hang gliding, skiing, rock climbing? or even a visitor center.

- Include a brief description of the activity you choose.
- Is there anything you need to have before you do it.
 - For example, a camping permit? A fishing license? A climbing rope?

5. List the closest town to the park

THIS PART IS FOR YOUR PRESENTATION – You can choose to do a powerpoint/google slides/poster that includes all of the above research and the following.

6. 5 Pictures of the park
7. 1 Map of the park
